CENTRAL INTELLIGENCE AGENCY

OFFICE OF CENTRAL REFERENCE

10 April 1963

MEMORANDUM FOR: Executive Director

THROUGH: Deputy Director/Intelligence

SUBJECT: DCI - SecDef Negotiations

1. This action memorandum is pursuant to your request at the 2 April Senior Staff meeting to raise at this time subjects which may be appropriate for discussion in the course of the current CIA-DOD talks. Two are here proposed:

25X1

GROUP 1
Excluded from automatic
downgrading and
declassification

- 2 -

25X1

[Redacted]

4. Thus by a modest increase in staff, CIA could effectively provide a service which would require a major effort by DIA and perpetuate a division of responsibility which makes little sense.

DIA

Should provide

Slets. - Sh.

Industrial Intelligence Coverage

5. There is no specific DCID covering responsibility for industrial (target-type) intelligence in the Community. General reference is made in NSCID 1, para. 6 (3): "Central reference facilities as a service of common concern shall be provided by the Central Intelligence Agency and/or other departments and agencies, as appropriate". By CIA Regulation [Redacted] AD/CR is directed to "Develop and operate such specialized registers of biographic, industrial, and graphic intelligence data as may be required in support of intelligence production."

25X1

6. Among other users, both within CIA and outside, two Defense users lean heavily upon the Industrial Register: The Strategic Air Command (SAC) has 8 full-time personnel located in the Industrial Register (IR) to exploit its holdings for information used to prepare intelligence material for the SAC strike force; the AF Aeronautical Chart and Information Center (ACIC) has 3 full-time personnel exploiting IR receipts and holdings in support of air chart production programs.

7. DIA has recently taken over the former Army Area Analysis Intelligence Agency (AAIA) which, like ACIC and IR, is concerned with target related information. Moreover, both ACIC and the Army Map Service are subject to DIA's policy direction and are current candidates for integration within DIA.

8. The above facts indicate, I believe, the desirability of a review by CIA and DIA of how best to provide the Community with the industrial or target related information. I suggest no more than a joint review at this point, which may lead to a joint program, or at least a coordination of our respective efforts.

~~CONFIDENTIAL~~

RECOMMENDATIONS

13. That the above three topics be explored with Mr. Gillpatric in principle with a view to:

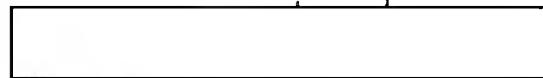

- a. Initiating talks between AD/CR and a DIA representative on points raised with respect to Biographic and Industrial Intelligence coverage.
- b. Laying the ground work for a favorable reaction to an overture by DCI to get Defense memoranda of conversation of intelligence value.
